# Nestlé Food Safety and Quality Policy

At Nestlé, Food Safety and Quality are at the heart of everything we do. They are our foundation for trust and deeply rooted in our purpose and values.

**Food Safety and Compliance are Non-Negotiable**
We never compromise on food safety and compliance. We adhere to internationally recognized food safety management systems and comply with legal, regulatory, and internal requirements. Our commitment is unwavering: to deliver safe and nutritious products that strengthen trust in our brands and our company - every day, in every market.

**Quality enables Unrivaled Product Superiority**
Powered by Nestlé's long history of expertise and robust science and technology capabilities, quality is the cornerstone of our ambition to achieve unrivaled product superiority. We take ownership, make deliberate choices, and aim to deliver the best consumer and customer experience, making sure that the quality we design is the quality we deliver.

**Quality is End-to-End**
Quality is embedded across the entire value chain, from ideation to responsibly sourced ingredients, manufacturing, packaging, and delivery to the point of consumption. At every phase, we ensure excellence in execution.

**Food Safety and Quality are Everyone's Responsibility**
Each of us plays a vital role in delivering our promise of food safety and quality in the products we make. We foster a culture where every individual is empowered and expected to act, speak up, drive continuous improvement - and is recognized for their contributions.

With these commitments, we protect our consumers, safeguard our brands, and build trust. We all share the responsibility to take action, raise the bar, execute with discipline to guarantee food safety and quality in everything we do.

On behalf of the Executive Team,

Philipp Navratil
Chief Executive Officer
